

**Big Ox Conference Call  
Meeting Minutes  
12-30-16**

Councilmen Davis joined the call.

**1. Short Term Plan Action Items**

- 1a. valves have been shipped, will be installed at 3 locations next week by Hydrotech
- 1b. continue to operate, Trail camera is up near the Lift Station.
- Carbon scrubber were installed on Bennet Lift station, roof has been seal on the Temporary lift station along with the pipes

**2. Short Term Plan Action Items**

- Continue to work on design and will be getting the easement information to the city by next week.

**3. Long Term Plan Action Items**

- New odologues were installed yesterday at he the locations, may have results by next week.

**4. Sampling Update**

- Discussed that Big Ox will shoot for Wednesday for startup.
- Tuesday, they will discuss a schedule, will be a meeting before our 10am call to discuss this.
- More residents did call about odors coming from Big Ox (replied the odors are coming from the plant when the doors open for unloading, are looking at a solution for this).

**5. Big Ox Status Report**

- No new updates and waiting for Big ox to Start up

**6. Sioux City Status Report**

- Aaron lacino update: Researching on other medical gases as Methomercasin and Sulfer dioxide along with Sue Dempsey and talking with her from the state. Labs can test for these which will be another test done by Aaron, could be more money for this to be done. If this is the step, will discuss which houses will need this test.

**7. Public Relations**

- Press release:
- Michael Washburn is doing an interview with KMEG and Channel 9 at 11:15am today.
- Terry Lutz is doing one with KSEJ Radio.

**8. Other Issues**

- Again, it was discussed about different options on how the impacted residents would be notified/not to notify them. If we do notify them, what would be a good time frame before Big Ox starts up.
